LAW AS DATA · SAMPLE ARTICLE

Cross-border data flows and the question of trust

2026-09-10 · A Kenyan advocate

Data moves across borders more easily than legal protections do. We explore the questions Kenyan organisations should ask when assessing safeguards, oversight and accountability in international transfers.

Sample article — for demonstration only.

Beyond geography

International transfers raise questions about safeguards and effective remedies. Organisations should consider the context of each transfer.

Ongoing oversight

A decision made once should be reviewed as circumstances change.
